

*Model B78/CN-6RW Surface Mount Bench  
with green powder coat frames, 6 ft. long with brown  
thermo-plastic coated R-Type perforated steel seat.*

- **Comfortable contoured full back and seat design**
- **Wide frame curves form comfortable armrests**
- **Sturdy, formed and welded steel frame construction**
- **Powder Coat frame finish**
- **Thermo-plastic Coating heat fused to Perforated Steel Seat for durability**
- **Thermo-plastic Coating formulated with U.V. stabilizers for ultraviolet protection**
- **Quality construction throughout**

#### **SPECIFICATIONS:**

- **Model B78 Series** end frames are one-piece welded construction with frame to meet 2" nominal steel pipe size specifications (2-3/8" O.D.) and each corner to be formed on a nominal 6" centerline radius.
- Frames are supported by a horizontal brace of 1.66" O.D. x 14 ga. wall steel pipe that connects the frames of the bench.
- Bench is designed to be permanently surface mounted using 9/16" dia. holes provided in each base plate for use with concrete anchors (anchors not included).
- **Model B78-4** is a nom. 4 ft. in length.
- **Model B78-6** is a nom. 6 ft. in length.
- **Model B78-8** is a nom. 8 ft. in length.
- **Standard:** All steel frame components are finished in Black powder coat (indicated by "/CB" in model no., e.g. B78/CB-4RW).
- **R-Type** seat is a one-piece welded construction, fabricated from a 14 ga. perforated steel surface with 9/16" dia. holes in a 13/16" center to center in-line pattern welded to 7 ga. end plates reinforced with 3/16" flat steel bar and 1/2" dia. round steel bar. Seat edges have a 1-15/16" radius roll to form a smooth curved outer edge of seat. Substructure includes all mounting holes for easy assembly of table.
- **Standard:** All steel surfaces of the seat are covered with a thermo-plastic coating in a Brown color (indicated by "RW" in model no., e.g. B78/CB-4RW). The UV-stabilized thermo-plastic coating is applied in a multi step process of material preparation and finish application designed to permanently heat fuse and bond the finish to the steel. The thermo-plastic polyethylene finish is impact resistant, does not support mold or mildew, and the textured matte surface is less susceptible to marring and scuffing.
- All fasteners are provided for assembly.
- **Optional:** Color choices of powder coated steel frame components. For optional color choices see Specification Bulletin #SPC-CO-001.
- **Optional:** Color choices of Thermo-plastic coated steel components. For optional colors choices see Specification Bulletin #SPC-CO-001.

#### **AVAILABLE OPTIONS**

- **4', 6', or 8' models**
- **Choice of colors of Powder Coat Finish on steel frame components**
- **Choice of colors of Thermo-plastic Coating**
