AVAILABLE OPTIONS

Choice of colors of textured powder coat finish
Recycling insert plate with choice of three sizes of hole

SPECIFICATIONS:

- **BPRT1-36 Series** bear resistant trash receptacle is designed and tested to keep bears out of your trash.
- The receptacle features a tightly fitted, self-latching lid for depositing trash, and a tightly fitted front access door for removing the trash liner.
- Overall dimension of the receptacle when closed: 47" tall, 24-3/8" wide, and 26-5/8" deep. Receptacle meets ADA guidelines for forward and side reach.
- The body of the receptacle is a welded construction of 12 and 14 ga. formed steel, reinforced with 7 ga. rib supports, welded to a 7 ga. base with four 25/32" dia holes for anchors. Anchor kit #ANC5-4 (four 1/2" x 5" concrete screw anchors) is included. Receptacle must be anchored to hard surface to be considered "Bear Proof".
- Top is sloped for easy access to the 16" square hatch opening. The hatch is secured by a stainless steel hinge and a self-closing commercial duty latch, mounted under a formed steel guard designed to fit human hands, not bear paws. To release the latch, the hand must reach under the guard. Access for bears is also blocked by a raised obstacle built into the top of the receptacle.
- The access door on the front of the receptacle is 29" tall x 21-7/16" wide to allow easy access to a 36 gal. rigid plastic liner (included). Door is 12 ga. steel reinforced with 3/4 x 3/4 x 1/8 angle and mounted on a full length continuous stainless steel hinge. A self-closing latch secures the door at the top and bottom.
- Entire unit is finished in textured brown powder coat paint.
- Trash decal is included.
- A 36 gallon rigid plastic liner is included.
- **Optional:** Choices of colors of textured powder coat finish. Available in green, black, speckled tan or blue.
- **Optional:** Recycling insert plates finished in black powder coat. Available sizes are:
 - **Model BPRP PC1**, 3" Dia. hole.
 - **Model BPRP PC5**, 4-3/8" Dia. hole.
 - **Model BPRP PC6**, 5-7/8" Dia. hole.
- Our bear resistant trash and recycling receptacles have been successfully tested by the Grizzly and Wolf Discovery Center (GWDC) using the Interagency Grizzly Bear Committee (IGBC) protocol.
