

## XT Series 6 and 8 Foot Wheelchair Accessible Table Extended One End 100% Recycled Plastic Top and Seats

SPECIFICATION
BULLETIN
#SPC-TB-061

REV. 08-18

Model XT/CW-6PC/E 6 Ft. Wheelchair Accessible Portable Table, Extended 2 Ft. One End, with Brown Powder Coat Frame and Cedar colored 100% Recycled Plastic Top and Seats

- ADA compliant wheelchair accessibility at one end
- Constructed specifically for heavy use areas
- Nontip, nontrip walk-through design
- All welded end frames are fabricated from 2-3/8" diameter steel pipe
- Die-formed center channel, end channel, and diagonal braces align and strengthen entire table
- Frames are hot dip galvanized after fabrication for superior corrosion resistance
- 100% Recycled Plastic Seat and Top Planks with solid color and U.V. stabilizer for ultraviolet protection
- Steel channel reinforcements under seats and table top
- Limited lifetime warranty on frames

## **AVAILABLE OPTIONS**

Choice of colors of Recycled Plastic Choice of colors of Powder Coated steel frame components

## **SPECIFICATIONS:**

- •XT Series end frames are one-piece welded construction, fabricated from 2.375" O.D. (2-3/8" O.D.) steel pipe to meet 2" nominal steel pipe size specifications with 2" x 2" x 1/8" die formed steel angle for attaching the seats and tops. "Outriggers" are attached to the frame on the extended end of the table for added stability.
- Table frame design incorporates nontip, nontrip, walk-through design features. Bends are tightly formed to prevent tipping when weight is on one side.
- Table top extends 2 ft. beyond seats (indicated by "/E" in model no., e.g. XT/G-6PC/E) to provide the ADA recommended wheelchair clearances of: 30" wide, 27" under table (ground to bottom of table top), and 24" total knee and toe clearance (19" + 5"). A diagonal brace of 1-5/16" O.D., hot-dip galvanized, steel pipe and a die-formed steel channel is provided to support extended portions of table top and maintain planks against warping.
- Model XT/G-6PC/E has a nominal 8 ft. long top and 6 ft. long seats. Includes frame stabilizing outriggers.
- Model XT/G-8PC/E has a nominal 10 ft. long top and 8 ft. long seats.
- Frame design provides a nominal 28" of clearance from ground level to the underside of the table top and nominal seat height of 17-1/2".
- Frames are supported by diagonal braces of 1-5/16" O.D. steel pipe that connect to a die-formed steel channel designed to align and provide attachment to the table top.
- •Standard: All steel frame components are hot-dip galvanized after fabrication to ASTM-A123 to maintain an average zinc coating of 2.0 oz. per sq. ft. of surface area (indicated by "/G" in model no., e.g. XT/G-6PC/E).
- All galvanized fasteners are provided for assembly.
- **Standard:** Top and Seats are made of 100% Recycled Plastic molded into 2" x 10" nominal sized planks with solid Cedar color (indicated by "PC" in model no., e.g. XT/G-6**PC**/E) formed throughout and a U.V. stabilizer added for ultra-violet protection.
- Recycled Plastic table top and seat planks are supported by pregalvanized steel subframe channels.
- **Optional:** All steel frame components have powder coat finish. See Specification Bulletin #SPC-CO-001.
- **Optional:** Color choices of recycled plastic components. See Specification Bulletin #SPC-CO-001.
