

*Model BB-1/PR single bike parking block
molded from Red Recycled Plastic*

- **Solid, heavy weight block molded from 100% Recycled Plastic**
- **Solid color throughout with U.V. stabilizer for ultraviolet protection**
- **1, 3, and 4 bike models available**
- **Holds front or rear wheels of any size**
- **Eye bolt for securing bike locks**

SPECIFICATIONS:

- **BB Series** bike parking block is a solid single molded unit of 100% recycled plastic 30" long, 12" wide, and 8" high. A 13-1/2" radius x 2-9/16" wide wheelwell is formed in the top of the block to hold the front or rear wheel of common sizes of bicycles. A large drain hole in the bottom of the wheelwell allows drainage of water and dirt.
- **Model BB-1/PC** is a single block to hold one bike.
- Multiple bike blocks can be connected by two 2" x 4" (nom.) recycled plastic planks secured in recesses in bottom of the block to provide parking for multiple bikes.
- **Model BB-3/PC** is 48" inches long with three blocks spaced to hold three bikes 18" center to center.
- **Model BB-4/PC** is 72" inches long with four blocks spaced to hold four bikes 20" center to center.
- Block is anchored to solid surfaces by means of 7/16" diameter hole at each end. Two 3/8" dia. concrete anchors for each block are included.
- Bike security is provided by a 3/8" dia. eye-bolt with a 1" dia. eye for attachment of bike lock cables. Eye-bolt is mounted in a way to prevent removal when block is secured to surface.
- **Standard:** Bike block is made of 100% Recycled Plastic molded with solid Cedar color (indicated by PC in model no., e.g. BB-1/PC) formed throughout and a U.V. stabilizer added for ultra-violet protection.
- **Optional:** Color choices of Recycled Plastic components. For optional colors choices see Specification Bulletin # SPC-CO-001.

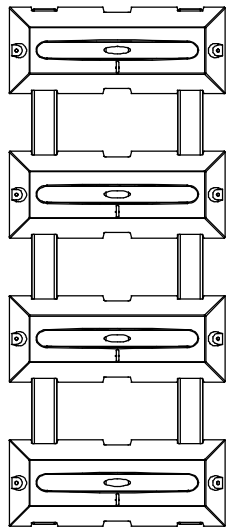

AVAILABLE OPTIONS
