

Model FSW-26/18/PA/H Wheelchair Accessible
Campfire Ring with swivel cooking grate.
Shown with optional heat shield.

(Below) Grate shown rotated out of the firering.

- **Meets ADA guidelines, requires less than five pounds of force with one hand to move grate out of firering**
- **Handle is never over the fire**
- **Flanged firering for strength and safety**
- **Public use-type spring grips of coiled steel bar**
- **Elevated cooking grate and firebed conform to ADA guidelines**
- **Required aggregate fill protects site surfaces such as paver blocks, cement, and asphalt from heat damage**
- **Quality construction throughout**

Utility Shelf
Heat Shield

SPECIFICATIONS:

- **FSW Series** firering is designed to meet ADA guidelines requiring less than five pounds of force with one hand to operate the grate.
 - 27" overall dia. firering is constructed from 3/16" thick steel with a formed (NOT WELDED) 1" flanged lip around the top of the ring and ten 1" dia. drain/draft/anchor holes located around the perimeter.
 - **Model FSW-26/18/PA** firering side height is 17-1/8".
 - The single level, 300 sq. in. cooking grate is constructed from 1/2" dia. A-36 steel bars around the perimeter, 5/8" dia. A-36 steel bar for the handle, and 1/2" dia. A-36 steel bar for the grate bars.
 - Grate is provided with a substantially constructed spring grip suitable for public use made from 1/8" x 1/2" flat bar (not wire springs).
 - Grate is mounted on a 2-3/8" OD tube allowing it to rotate on a horizontal plane out of the firering. Two welded-on stops limit rotation to 180° to prevent the handle entering the area over the fire.
 - Firering is designed to be filled with customer supplied aggregate fill to a minimum of 9" above ground level to conform with ADA guidelines to raise fire to proper height. Fill also protects hard surfaces from heat damage.
 - Unit is provided with three 1/2" dia. anchor pins for concrete embedment (indicated by "/PA" in model no., e.g. FSW-26/18/PA).
 - Entire unit is finished in high temperature, heat resistant, nontoxic black enamel paint.
 - **Optional:** Firering is provided with a 3/16" x 7-1/8" x 9-5/8" steel plate utility shelf. (Add "/S" to model no., e.g. FSW-26/18/PA/S.)
 - **Optional:** Firering is provided with an 8" high heat shield constructed from 10 ga. steel welded on to new firerings. Heat shield provides a 7/8" cooling air gap around the area of the firering exposed to the fire (indicated by "/H" in model no., e.g. FSW-26/18/PA/H).
- Note: The optional utility shelf fits both firering and optional heat shield. (When ordering both options, add "/H/S" to model no., e.g. FSW-26/18/PA/H/S.)
