

Model PAB/G-6VN10 Surface Mount Athletic Bench
with hot dip galvanized frames, 6 ft. long
with green thermo-plastic coated V-type expanded steel seat.

- **Extra heavy design to be stronger and more stable with a simple, clean style.**
- **Sturdy, formed and welded steel frame construction**
- **Frames are Hot-Dip Galvanized after fabrication for superior corrosion resistance**
- **Thermo-plastic Coating heat fused to Expanded Steel Top for durability**
- **Thermo-plastic Coating formulated with U.V. stabilizers for ultraviolet protection**
- **Quality construction throughout**

AVAILABLE OPTIONS

- 4', 6', or 8' models**
- Powder Coat Finish in choice of colors for Steel Frame components**
- Choice of colors of Thermo-plastic Coating**

SPECIFICATIONS:

- **Model PAB** end frames are one-piece, welded construction with seat bracket of 2" x 2" x 3/16" A-36 structural grade steel angle and a 2.375" (2-3/8") O.D. post and foot to meet 2" nominal steel pipe size specifications. Frame foot is formed with flattened and rounded ends. A 9/16" hole is provided in each end of foot for optional surface mounting with concrete anchors (anchors not included).
- **Model PAB/G-4** is 4 ft. long (nom.) with two frames.
- **Model PAB/G-6** is 6 ft. long (nom.) with two frames and diagonal braces.
- **Model PAB/G-8** is 8 ft. long (nom.) with two frames and diagonal braces.
- **Standard:** All steel frame components are hot-dip galvanized after fabrication to ASTM-A123 to maintain an average zinc coating of 2.0 oz. per sq. ft. of surface area (indicated by "/G" in model no., e.g. PAB/G-4VW10).
- All fasteners are provided for assembly.
- **V-Type** bench seat is a one-piece welded construction, fabricated from a 3/4"-#9 expanded steel surface with 10 ga. x 2-1/2" roll-formed vertical edges on all sides and reinforced by a 10 ga. die-formed angle substructure. Substructure includes all mounting holes for easy assembly of bench.
- **Standard:** All steel surfaces of the seat are covered with a thermo-plastic coating in a Brown color (indicated by "VW" in model no., e.g. PAB/G-4VW10). The UV-stabilized thermo-plastic coating is applied in a multi step process of material preparation and finish application designed to permanently heat fuse and bond the finish to the steel. The thermo-plastic polyethylene finish is impact resistant, does not support mold or mildew, and the textured matte surface is less susceptible to marring and scuffing.
- **Standard:** Seat is 10" wide (nom.), indicated by "10" at end of model number, e.g. PAB/G-4VW10.
- **Optional:** Seat is 12" wide (nom.), indicated by "12" at end of model number, e.g. PAB/G-4VW12.
- **Optional:** Color choices of powder coated steel frame components. For optional colors choices see Specification Bulletin #SPC-CO-001.
- **Optional:** Color choices of Thermo-plastic coated steel components. For optional colors choices see Specification Bulletin #SPC-CO-001.
