

Model PQT3/G-4HR 48" Square Top, Wheelchair Accessible, Embedded Mount Table with galvanized frame and red H-Type thermo-plastic coated perforated steel top and seats.

- **Three seats and one open side for wheelchair access**
- **Square design optimizes table top usage and creates a more intimate setting**
- **Square table fits into more compact areas**
- **Permanent embedded mounting**
- **Sturdy 6" square center pedestal, 3-1/2" diameter round radial seat supports**
- **Thermo-plastic Coating heat fused to Perforated Steel Top and Seats for durability**
- **Thermo-plastic Coating formulated with U.V. stabilizers for ultraviolet protection**
- **Quality construction throughout**

AVAILABLE OPTIONS

- Powder Coat Finish in choice of colors for steel frame components**
- Choice of colors of Thermo-plastic Coating**
- Umbrella**
- Game Board Table Top**
- Surface mount base plate**
- Contour Bench Seat**

SPECIFICATIONS:

- **Model PQT3-4** table frame incorporates a 6" square single pedestal post designed to embed into a concrete footing.
- Three seat support frames are each a one-piece welded construction of 3-1/2" dia. x 11 ga. wall structural steel tubing, a 2-3/8" dia. 10 ga. wall tube, and 2" x 2" x 1/8" die formed steel angles designed to resist lateral torsion and deflection when loaded.
- **Model PQT3-4** tables have been adapted for wheelchair accessibility. By removing one or more arm/seat structures the side of the table is opened to provide wheelchair access.
- Frame is designed in a theft-proof manner with all fasteners extending into the post to prevent removal after assembly.
- **Model PQT3/G-4** has a 48" (nom) square table top.
- Table height is 32-1/4" (nom). Seat height is 20-3/8" (nom).
- All galvanized fasteners are provided for table assembly.
- **Standard:** All frame components are hot-dip galvanized after fabrication to ASTM-A123 to maintain an average zinc coating of 2.0 oz. per sq. ft. of surface area (indicated by "/G" in model no., e.g. PQT3/G-4HW).
- **H-Type** table top and seats are each a one-piece welded construction, fabricated from a 14 ga. perforated steel surface with 9/16" dia. holes in a 13/16" center to center in-line pattern and 2-1/2" x 10 ga. roll-formed vertical edges on all sides reinforced by a 10 ga. die-formed angle substructure. Substructure includes all mounting holes for easy assembly of table.
- **Standard:** All steel surfaces of the top and seats are covered with a thermo-plastic coating in a Brown color (indicated by "HW" in model no., e.g. PQT3/G-4HW). The UV-stabilized thermo-plastic coating is applied in a multi step process of material preparation and finish application designed to permanently heat fuse and bond the finish to the steel. The thermo-plastic polyethylene finish is impact resistant, does not support mold or mildew, and the textured matte surface is less susceptible to marring and scuffing.
- **Standard:** Table is provided with cup and collar sets for mounting an umbrella.
- **Optional:** Table is provided with 45" long contoured bench seats constructed of thermo-plastic coated steel frame and perforated steel seat. To specify add "B" after the PQT3 in the model no., e.g. PQT3B/G-4HW.
- **Optional:** Color choices of Thermo-plastic coated steel components. For optional colors choices see Specification Bulletin #SPC-CO-001.
- **Optional:** Color choices of powder coated steel frame components. See Specification Bulletin #SPC-CO-001.
- **Optional:** Frame shall be provided with a 3/8" x 15-3/4" x 15-3/4" steel base plate to bolt table to existing concrete pad. To specify add /P after the PQT in the model no., e.g. PQT3/P/G-4HW. (Anchor bolts not included.)
