

**Model T403/CR-4RU** Surface Mount, Single Pedestal, Round Accessible Table with red powder coat frames, with blue R-Type thermo-plastic coated 4 ft. dia. perforated steel top and curved seats.

- **Surface mount, single pedestal frame design**
- **(3) Curved seats accommodate up to six people**
- **One seat and support arm have been removed to provide wheelchair access**
- **Frames are hot dip galvanized after fabrication for superior corrosion resistance**
- **Thermo-plastic Coating heat fused to Perforated Steel Top and Seats for durability**
- **Thermo-plastic Coating formulated with U.V. stabilizers for ultraviolet protection**
- **Quality construction throughout**

#### AVAILABLE OPTIONS

**Powder Coat Finish in choice of colors for steel frame components**  
**Choice of colors of Thermo-plastic Coating**  
**Umbrella**

#### SPECIFICATIONS:

- **T400 Series** table frame incorporates a 6" square single center pedestal post provided with a 3/8" x 15-3/4" x 15-3/4" steel base plate to bolt table to existing concrete pad (anchor bolts not included).
- **Model T403/G-4** has a nom. 4 ft. diameter top. Curved seats are 40" in length. Wheelchair access on one side.
- Three seat support frames are each a one-piece welded construction of 3-1/2" dia. x 11 ga. wall structural steel tubing, a 2-3/8" dia. 10 ga. wall tube, and 2" x 2" x 1/8" die formed steel angles designed to resist lateral torsion and deflection when loaded.
- Frame is designed in a theft-proof manner with all fasteners extending into the central post to prevent removal once the table is assembled.
- Nominal table height is 32". Nominal seat height 20".
- All fasteners are provided for assembly.
- **Standard:** All steel frame components are hot-dip galvanized after fabrication to ASTM-A123 to maintain an average zinc coating of 2.0 oz. per sq. ft. of surface area (indicated by "/G" in model no., e.g. T403/G-4RW).
- Table top and seats are each a one-piece welded construction, fabricated from 14 ga. perforated steel surface with 10 ga. x 2" formed vertical edges on all sides and reinforced by a 10 ga. die-formed angle substructure. Substructure includes all mounting holes for easy assembly.
- Table top includes a reinforced center hole for installation of optional umbrella with 1-1/2" dia. pole.
- **Standard:** All steel surfaces of the top and seats are covered with a thermo-plastic coating in a Brown color (indicated by "RW" in model no., e.g. T403/G-4RW). The UV-stabilized thermo-plastic coating is applied in a multi step process of material preparation and finish application designed to permanently heat fuse and bond the finish to the steel. The thermo-plastic polyethylene finish is impact resistant, does not support mold or mildew, and the textured matte surface is less susceptible to marring and scuffing.
- **Optional:** Color choices of powder coated steel frame components. See Specification Bulletin #SPC-CO-001.
- **Optional:** Color choices of Thermo-plastic coated steel components. For optional colors choices see Specification Bulletin #SPC-CO-001.
- **Optional:** An umbrella is available. Please inquire for details.
